

Keep the Beat Alive

# Mu<sup>♩</sup>ic Technology in the Classroom

Technology is revitalizing the way aspiring musicians compose, produce, and perform music. Music teachers and students alike can experience the benefits of technology and its ability to bring music education to new levels!

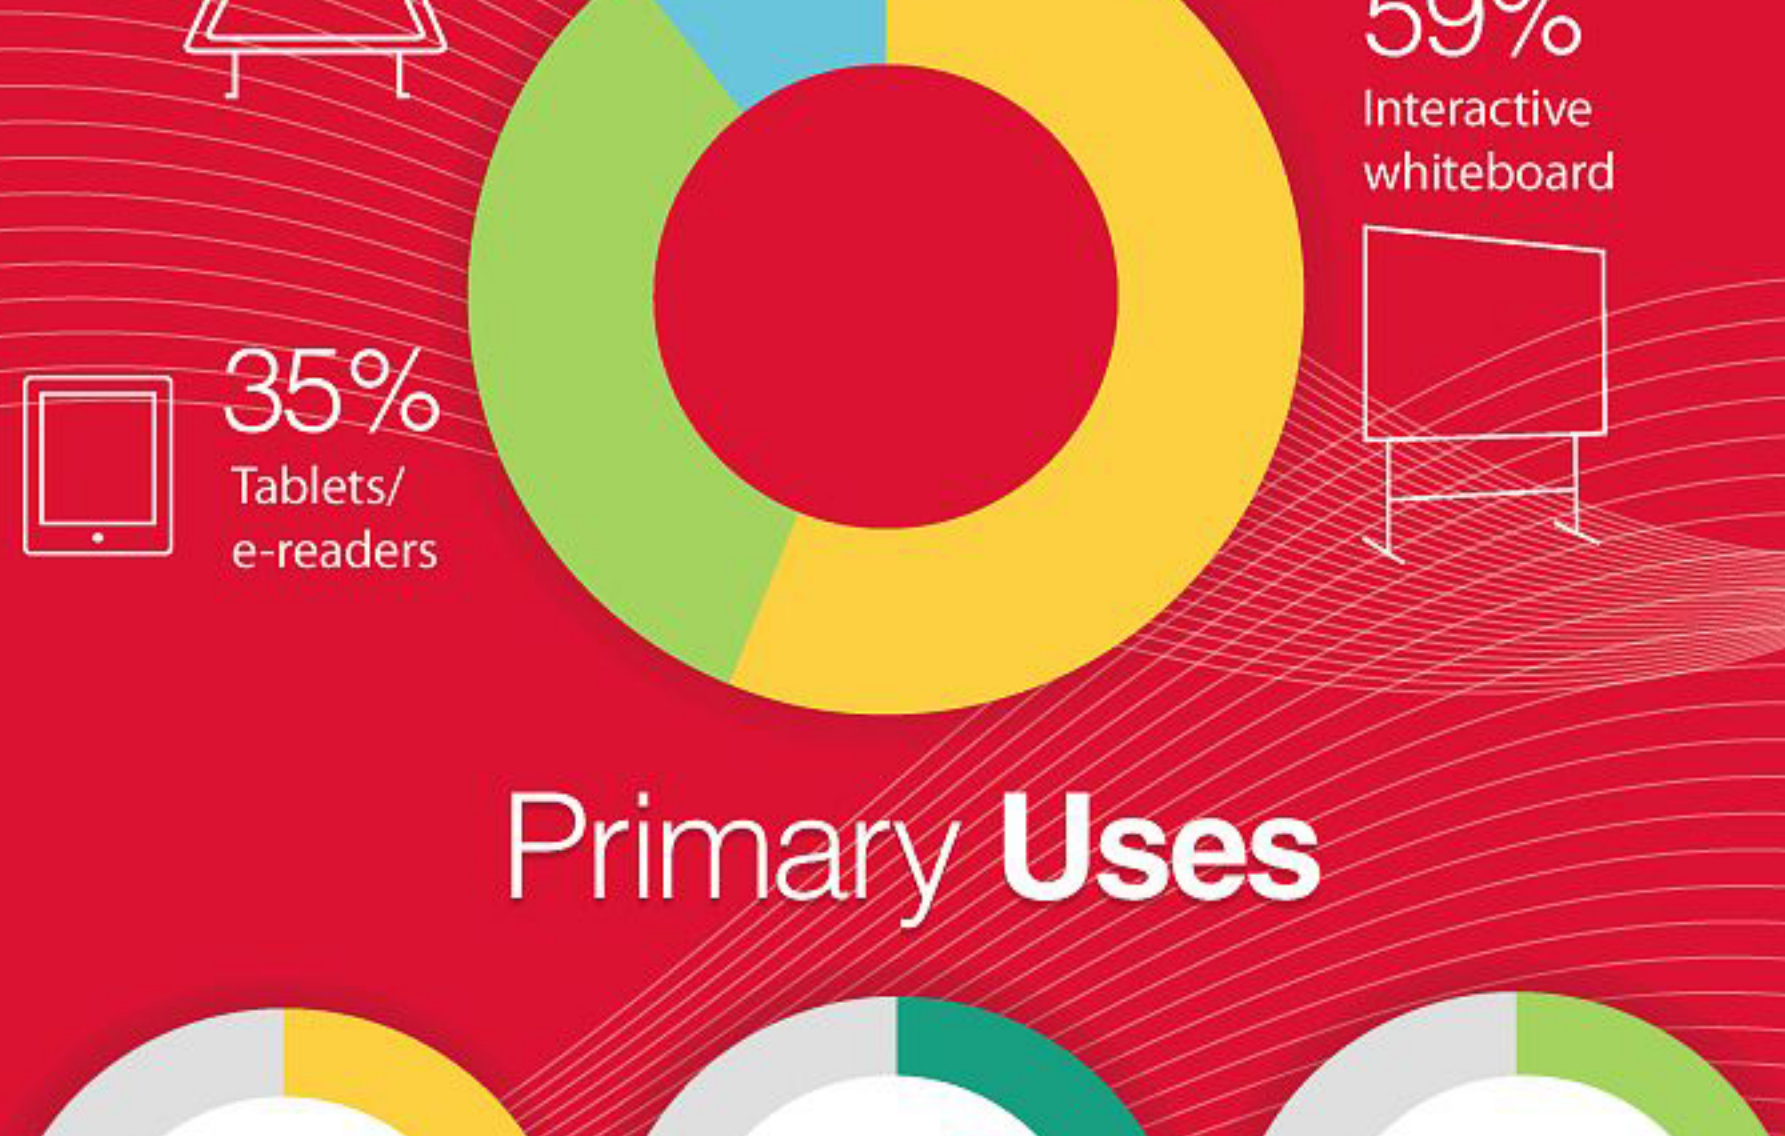

## Ed-Tech in the Classroom

How is technology used in the typical classroom? Here's how teachers from all grade levels responded to a 2013 PBS Learning survey.

## Reported Benefits

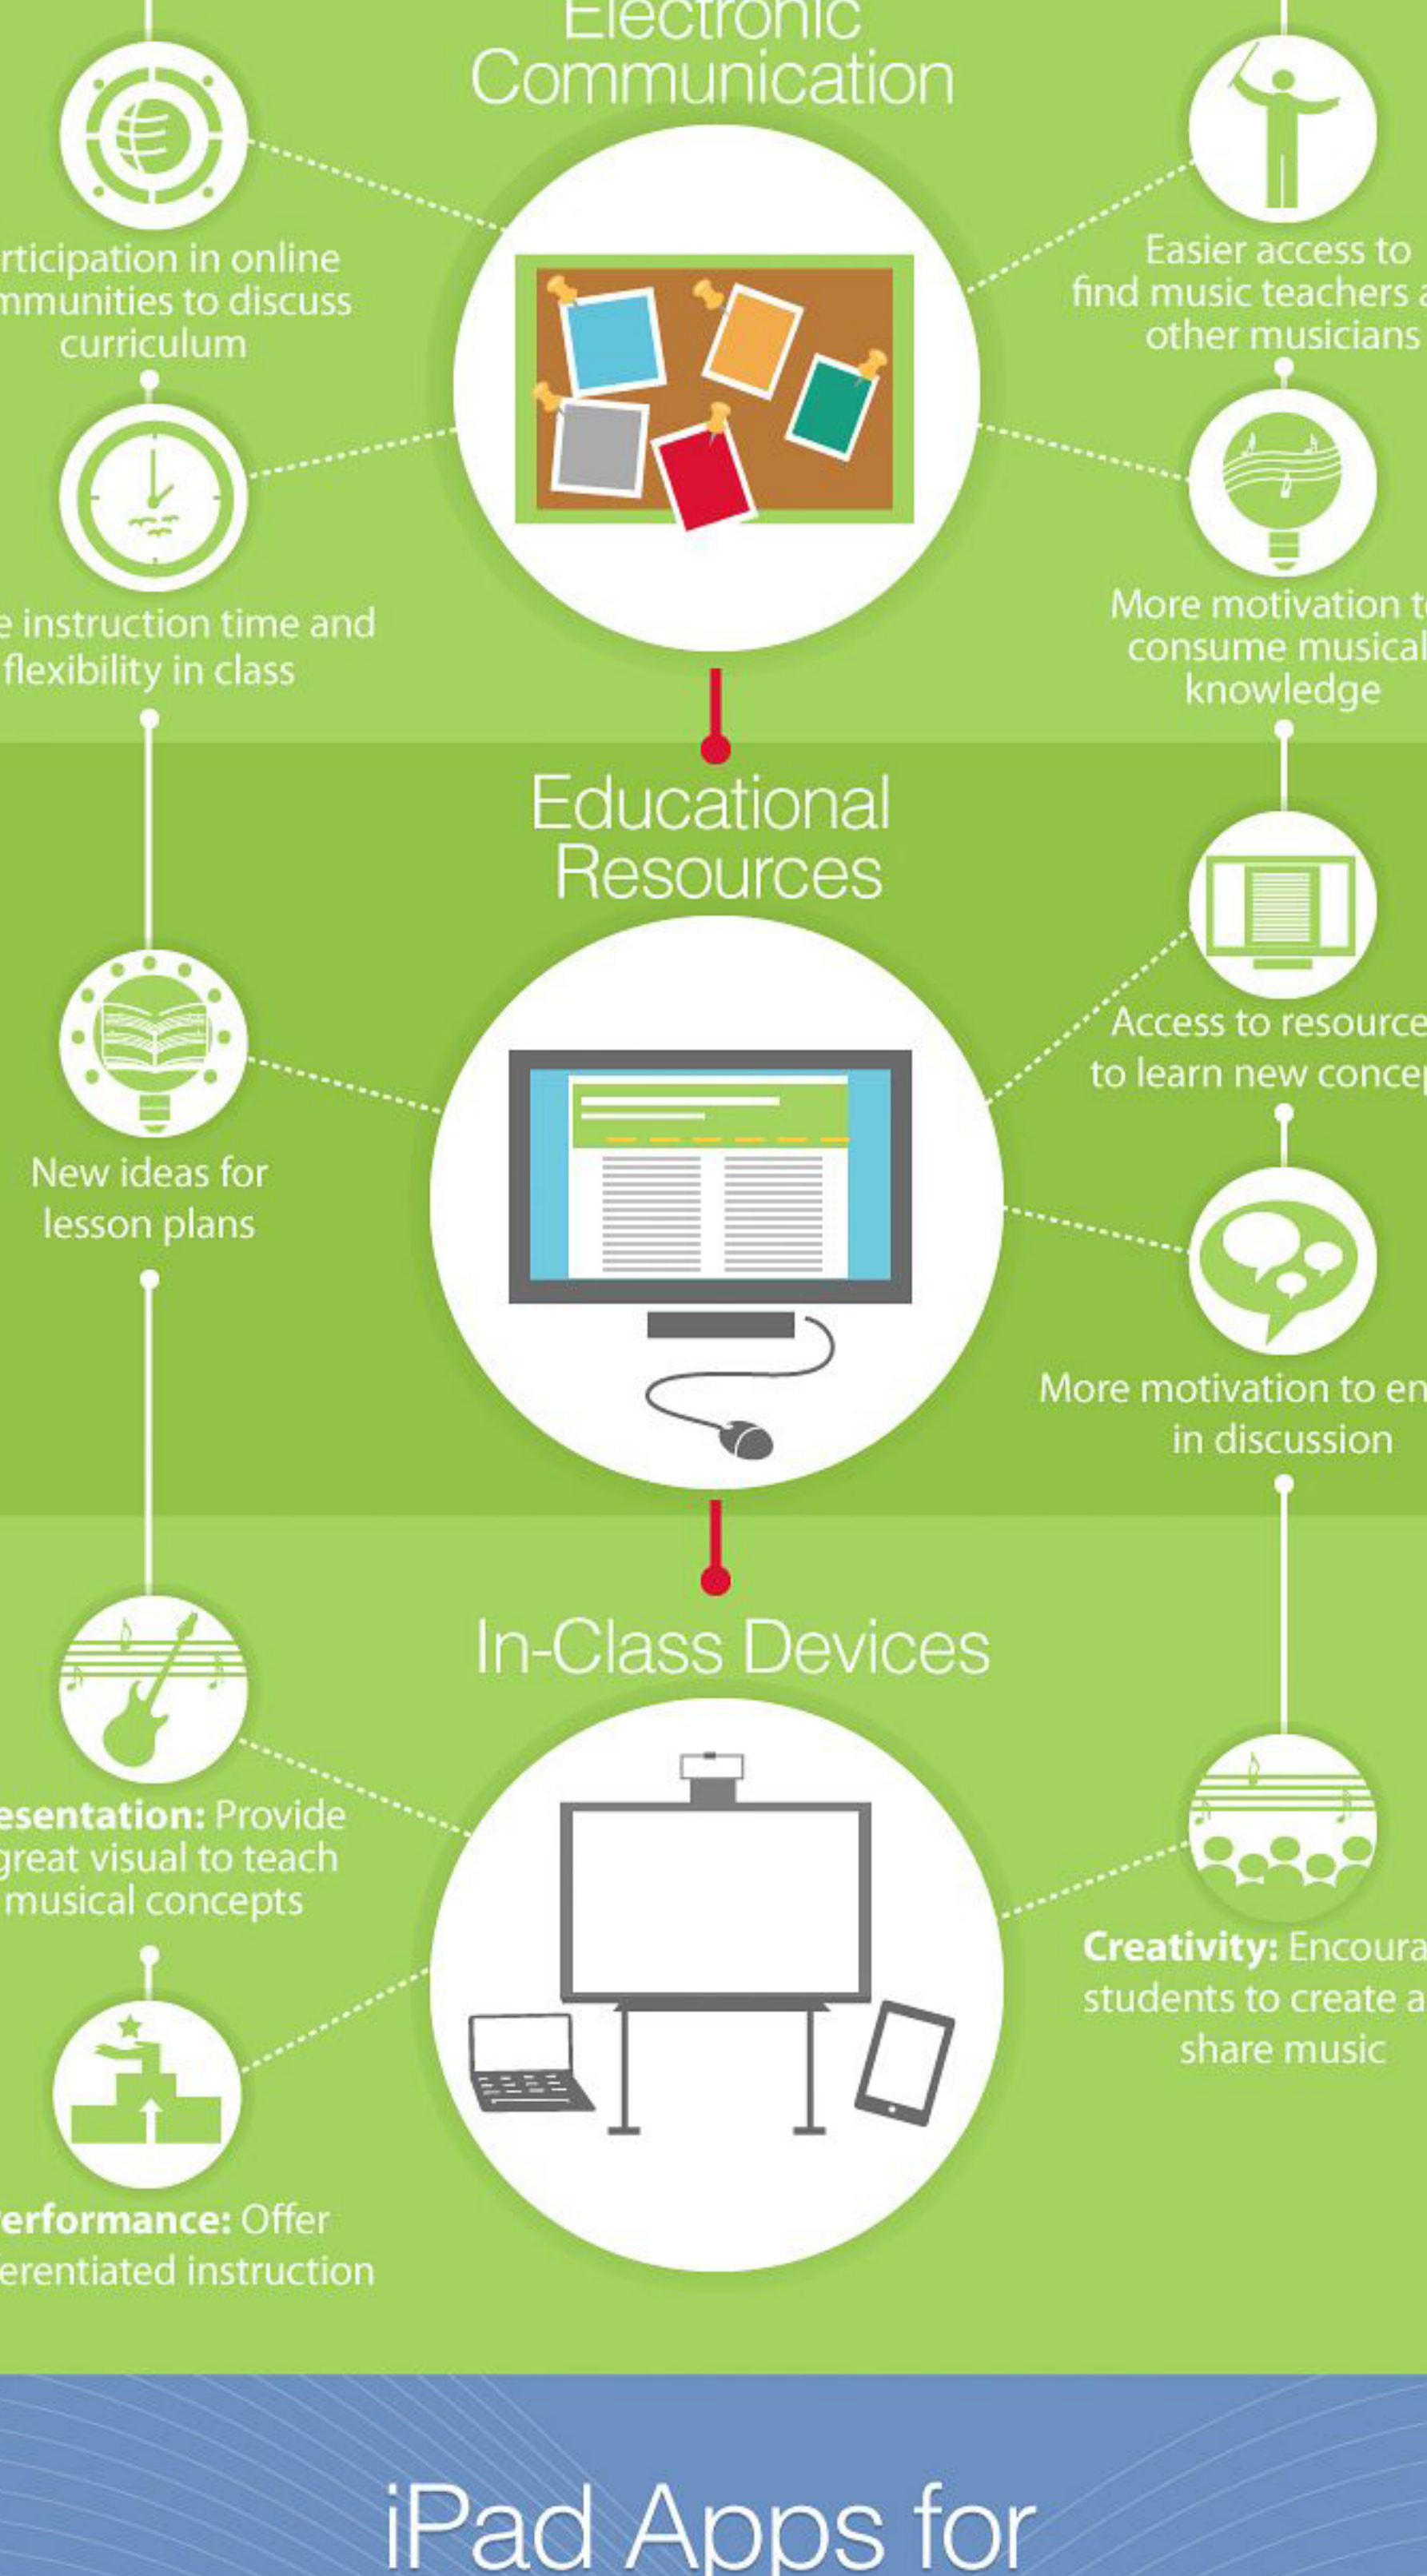

## Types of Devices

## Primary Uses

## How Technology Impacts Music Teaching & Learning

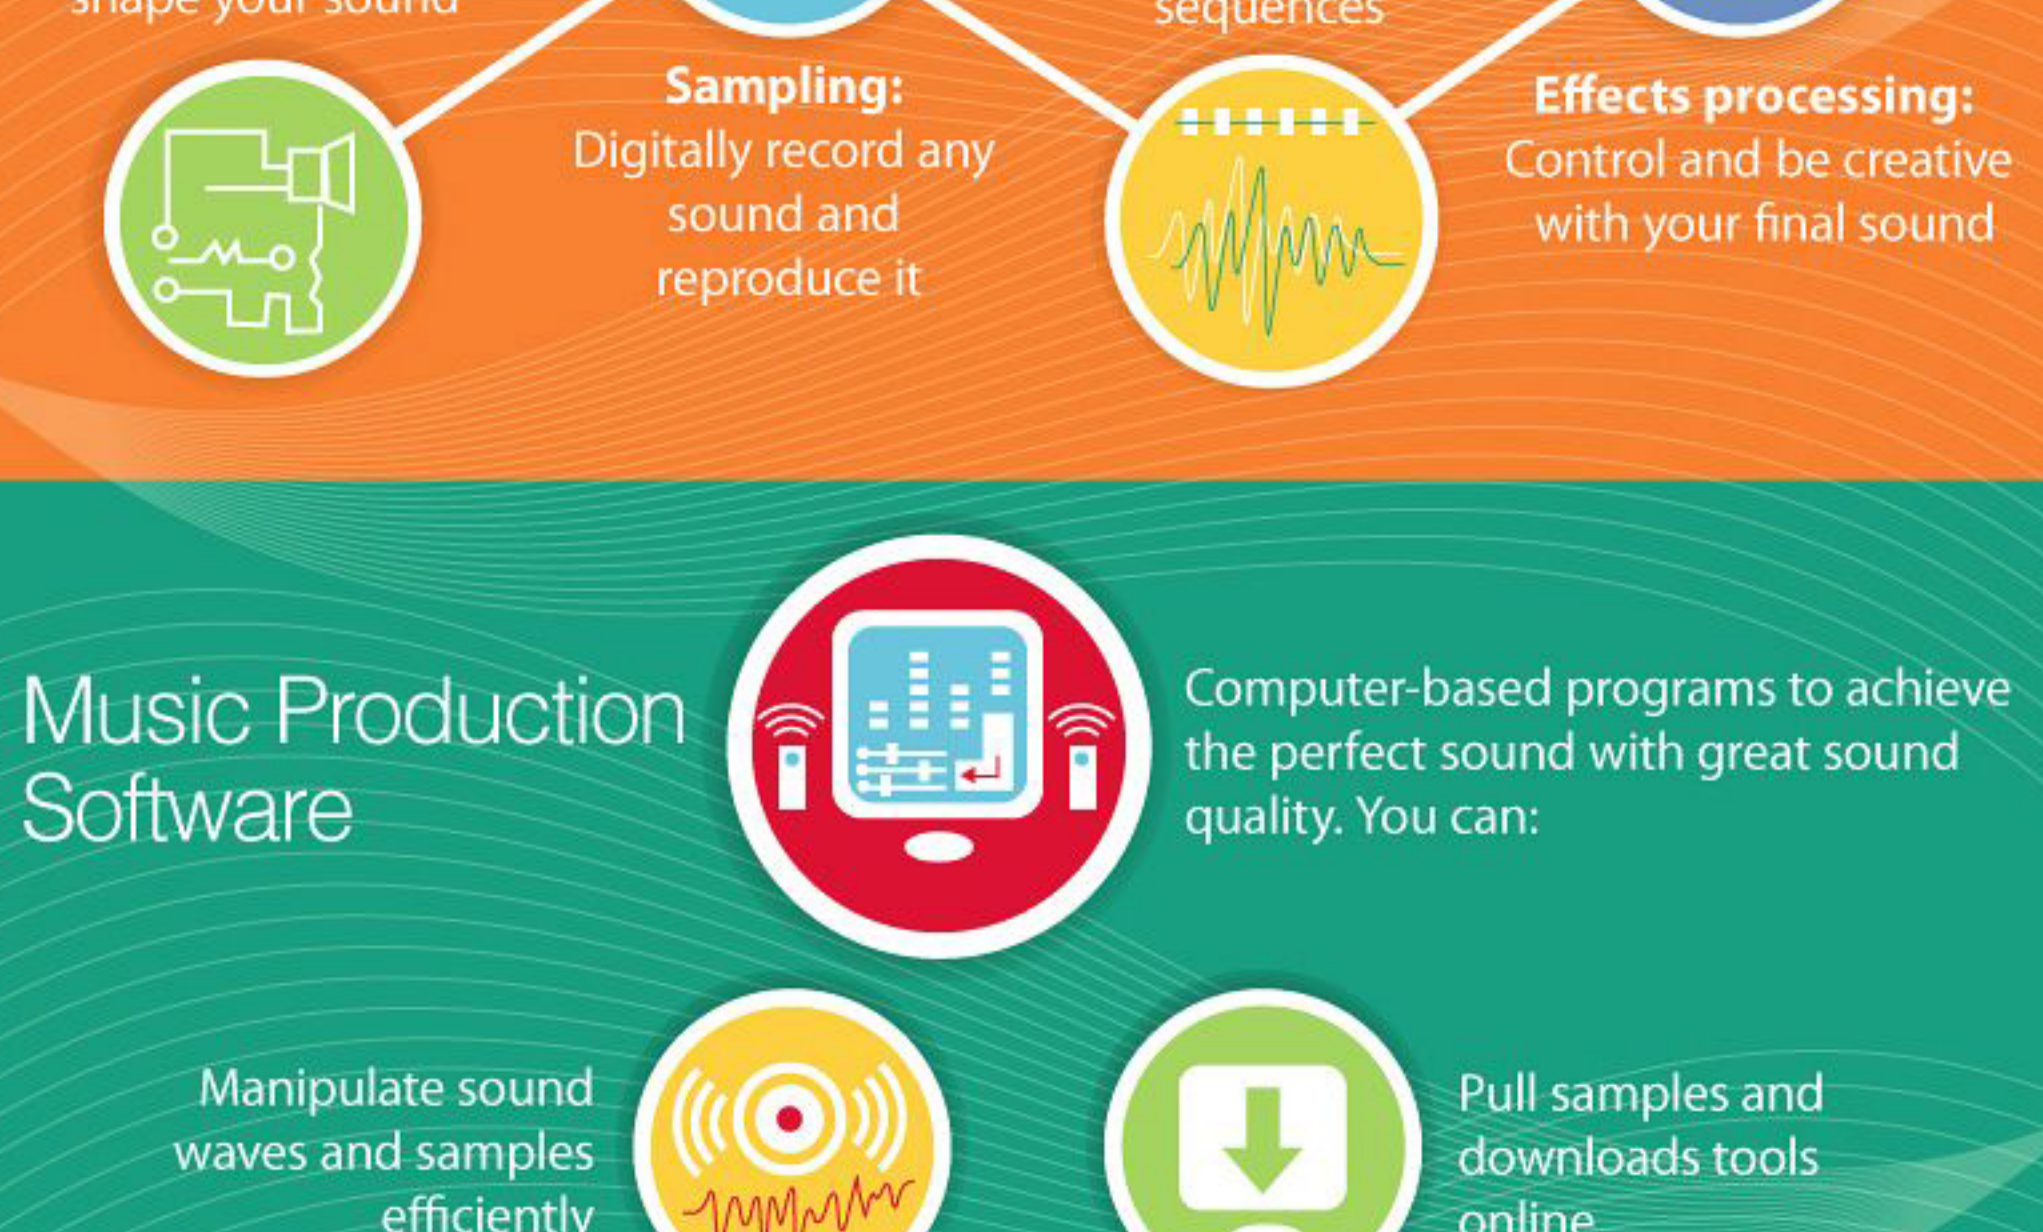

## iPad Apps for Music Education

These music apps can easily be applied to your practice and production arsenal!

- Ear Trainer:** Improve your musical ear
- GarageBand:** Create with a full-featured recording studio
- forScore:** Store all your sheet music in this robust library
- Real Piano Pro:** Play a full 88-key piano w/ realistic sound and key labels
- Guitar Lab:** Get strumming with video guitar lessons
- ImprovVox:** Practice your pitch and harmonization
- TabToolkit:** Jam along to your favorite songs

## Create A Music Production Studio

With these technologies, you'll become a rising music producer before you know it!
